Mindluster Platform

About the course Cinema 4D 3D modeling essentials

Cinema 4D 3D modeling essentials course, in this course designed to provide you with a strong foundation in 3D modeling using Cinema 4D. Weâ€™ll begin by introducing you to the basics of the Cinema 4D interface, navigation, and essential tools used for creating 3D objects. Youâ€™ll learn key concepts like polygonal modeling, which involves manipulating vertices, edges, and polygons to create complex shapes. Throughout the course, weâ€™ll cover important techniques such as extrusion, beveling, and subdivision surfaces to refine your models and add intricate details. Additionally, you will explore how to create and modify both organic and hard-surface models, preparing you for a wide range of design projects. The course also includes an introduction to texturing and UV mapping to ensure your models are ready for rendering.

Graphic Design Category's Courses

Course Lesson(15)

Lesson 1 : **How to Get fast and easy Realtime Viewport Turntable renders Cinema 4D Tutorial**

Lesson 2 : **Tactical Blade UV Unwraping Texturing Painting Cinema 4D Bodypaint 3D Tutorial**

Lesson 3 : **3D Pharma Tablet Box Modeling Texturing Rendering Tutorial**

Lesson 4 : **Beginner 3D Rendering 1 Radio Basic Arnold Rendering Tutorial**

Lesson 5 : **Industrial Design Product Modeling 12 Earpiece**

Lesson 6 : **Advanced Product Modeling and Rendering Tutorial Trailer Breakdown**

Lesson 7 : **Complex Glass Bottle 3D Modeling Cinema 4D Modeling Tutorial**

Lesson 8 : **Re creating 3D images 1 Cinema 4D Modeling and Rendering Tutorial**

Lesson 9 : **Creating Hyper Realistic Renders Modeling**

Lesson 10 : **Model and Render Realistic Leathers 3D Modeling and Rendering Tutorial**

Lesson 11 : **Re creating 3D images 2 Cinema 4D Modeling and Rendering Tutorial**

Lesson 12 : **Industrial Design Product Modeling 21 Drone**

Lesson 13 : **Patreon Industrial Design Product Modeling 21 Drone**

Lesson 14 : **Industrial Design Product Modeling 23 Detector Part 1 Modeling**

Lesson 15 : **Industrial Design Product Modeling 23 Detector Part 2 Rendering**
