Mindluster Platform

About the course jQuery programming language

Pure JavaScript can be faster for DOM selection/manipulation than jQuery as JavaScript is directly processed by the browser and it curtails the overhead which JQuery actually has. JQuery is also fast with modern browsers and modern computers. JQuery has to be converted into JavaScript to make it run in a browser.

Programming Category's Courses

Course Lesson(12)

Lesson 1 :
1 How to Get Started With | jQuery Tutorial | Learn jQuery | jQuery Tutorial For Beginners

Lesson 2 : **2 How to add jQuery to your website | Learn jQuery | jQuery tutorial**
