About the course jquery for beginners

Pure JavaScript can be faster for DOM selection/manipulation than jQuery as JavaScript is directly processed by the browser and it curtails the overhead which JQuery actually has. JQuery is also fast with modern browsers and modern computers. JQuery has to be converted into JavaScript to make it run in a browser.

Languages in Arabic Category's Courses

Course Lesson(17)

Lesson 1 : **1 Introduction to JQuery Arabic**

Lesson 2 : **2 How To Use JQuery Arabic**

Lesson 3 : **3 JQuery Syntax Arabic**
