About the course Zooming images in photoshop for beginners

Zooming images in photoshop course, in this course we will learn about Zooming images in Photoshop, focusing on how to navigate and manipulate images efficiently for detailed editing and design work. Youâ€™ll start by mastering the basic Zoom Tool, learning how to zoom in and out of images using both manual controls and shortcuts to speed up your workflow. We will explore different zoom methods, including the use of the Navigator Panel for smooth panning and zooming across large or high-resolution images. As we progress, youâ€™ll discover how to utilize Zoom Shortcuts such as Ctrl/Cmd + Plus and Ctrl/Cmd + Minus for quick zoom adjustments. You will also learn how to set custom zoom levels, helping you to zoom in at specific percentages that suit your editing needs. Weâ€™ll cover advanced zoom techniques, such as using Scrubby Zoom for intuitive control over zooming and working in tight areas for retouching or digital painting.
