About the course Building a CV website from scratch

Building a CV website course, in this course you will learn how to create your own personalized CV website from scratch, offering a modern and professional way to showcase your skills, experience, and qualifications online. In today's digital world, having a personal CV website can make you stand out to employers and potential clients, offering an interactive and dynamic way to display your portfolio. This course will guide you step-by-step through the process, starting with selecting a platform, setting up your domain, and designing a clean, user-friendly layout. You'll learn how to customize your website with essential sections like your bio, work experience, education, skills, and projects, and how to make it visually appealing using simple design principles. We will also cover how to make your CV website responsive, so it looks great on any device, and optimize it for search engines to increase visibility. By the end of the course, you will have a fully functional, professional CV website that reflects your personal brand and sets you apart in the job market.
