Mindluster Platform

About the course X Ray Positioning fundamentals

X-Ray Positioning course, in this course we will learn about the critical techniques and principles of X-ray positioning essential for producing high-quality diagnostic images. Participants will explore the anatomy and physiology relevant to various imaging procedures, enabling them to understand the importance of proper positioning in achieving optimal results. The curriculum covers fundamental and advanced positioning techniques for different body parts, including the chest, abdomen, spine, and extremities. Emphasis will be placed on patient safety, comfort, and communication to ensure a positive imaging experience. Learners will also delve into specialized positioning techniques for trauma cases and pediatric patients, addressing unique challenges. Practical sessions will provide hands-on experience in positioning, allowing students to develop the skills necessary to enhance image quality and assist radiologists in accurate diagnoses. By the end of the course, participants will be well-equipped with the knowledge and confidence to implement effective X-ray positioning techniques in their practice. Join us to advance your skills in radiologic technology.

Medical Category's Courses

Course Lesson(18)

Lesson 1 : **How to SHOOT X RAYS of the ANKLE**

Lesson 2 : **How to SHOOT FOOT X RAYS**

Lesson 3 : **How to shoot an X RAY of the LOWER LEG or shin**

Lesson 4 : **How to SHOOT KNEE X RAYS**

Lesson 5 : **How to SHOOT a WRIST X RAY**

Lesson 6 : **CHEST X RAY**

Lesson 7 : **MASTER the C arm in Your X Ray Department**

Lesson 8 : **X Ray Should X Ray Professionals ALWAYS Use LEAD APRONS**

Lesson 9 : **X ray LEAD MARKERS vs DIGITAL MARKERS Which is best**

Lesson 10 : **X ray examination of the humerus**

Lesson 11 : **Top 5 MISTAKES that X RAY ROOKIES Make**

Lesson 12 : **X RAY CALIPERS The Golden Chalice of X rays**

Lesson 13 : **How to Get Docs to LOVE Your X Rays**

Lesson 14 : **Why Is It SO HARD to Take a SIMPLE X ray**

Lesson 15 : **Master Lateral CHEST X RAYS like a PRO**

Lesson 16 : **What are Radiographic ANATOMICAL PLANES**

Lesson 17 : **Why Do RADIOGRAPHERS Need to KNOW ANATOMY**

Lesson 18 :
Why Aren t My X ray IMAGES GETTING BETTER When I Change My EXPOSURE SETTINGS
