Mindluster Platform

About the course Introduction to Python

Python can be considered beginner-friendly, as it is a programming language that prioritizes readability, making it easier to understand and use. Its syntax has similarities with the English language, making it easy for novice programmers to leap into the world of development.

Programming Category's Courses

Course Lesson(53)

Lesson 1 : **Introduction to Python | Python Tutorial for Beginners Full Course**

Lesson 2 : **How to Download and Install Python 3 8 3 on windows 10 8 7**

Lesson 3 : **How to Install PyCharm IDE on Windows 10 | Python Tutorial for Beginners Full Course**

Lesson 4 : **Getting Started with Python in Pycharm**

Lesson 5 : **Comments in Python | Single Line and Multi Line Comments in Python**

Lesson 6 :
Variables in Python | Assign Values to Multiple Variables in Python | Python Tutorial for Beginners

Lesson 7 : **Data Types in Python | Python Tutorial for Beginners**

Lesson 8 : **Datatype Conversion and Type Casting in Python 3 | Python Tutorial for Beginners**

Lesson 9 : **Operators in Python | Python Tutorial for Beginners**

Lesson 10 : **Python Input and Print Function | User Input in Python | Python Tutorial for Beginners**

Lesson 11 : **11 List in Python 3 | Python 3 Tutorial for Beginners**

Lesson 12 :
12 List Method in Python with Example | Append Insert Remove Pop Copy Join Extend Count Sort Method

Lesson 13 : **Tuple in Python | Python Tutorial for Beginners | Tuple in Python With Easy Examples**

Lesson 14 :
Tuple Method in Python | Count Index Max Min Join Delete Method and Change Tuple Value in Python

Lesson 15 : **Sets in Python | Python Tutorial for Beginners**

Lesson 16 :
Set Methods in Python | Set Union Set Intersection Set Difference | Python Tutorial for Beginners

Lesson 17 : **Dictionary in Python | Python Tutorial for Beginners**

Lesson 18 : **How to Create Nested Dictionary in Python | Python Tutorial for Beginners**

Lesson 19 : **Escape Sequence in Python | Python Tutorial for Beginners**

Lesson 20 : **if statement in Python | Python Tutorial for Beginners**

Lesson 21 : **Number is Even or Odd using if Statement in Python | Python Tutorial for Beginners**

Lesson 22 :
Number is Equal or Not using Simple if statement in Python | Python Tutorial for Beginners

Lesson 23 :
python program to check positive negative or zero using if | Python Tutorial for Beginners

Lesson 24 :
Find Maximum Number using Simple IF Statement in Python | Python Tutorial for Beginners

Lesson 25 :
Find Minimum Number using Simple IF Statement in Python | Python Tutorial for Beginners

Lesson 26 :
Find Largest or Smallest Number using IF statement in Python | Python Tutorial for Beginners

Lesson 27 : **if else statement in python | python tutorial for beginners**

Lesson 28 : **Python Program Number is Even or Odd using If Else | Python Tutorial for Beginners**

Lesson 29 : **How to Find Leap Year using If Else in Python | Python Tutorial for Beginners**

Lesson 30 :
Python Program Number is Positive Negative or Zero Using If Else | Python Tutorial for Beginners

Lesson 31 : **Python Program Calculate Salary | Python Tutorial for Beginners**

Lesson 32 :
If Elif Else Statement in Python | Multiple If Else Statement | Python Tutorial for Beginners

Lesson 33 : **Python Program Calculate Electricity Bill | Python Tutorial for Beginners**

Lesson 34 : **Python Program Calculate Student Grade | Python Tutorial for Beginners**

Lesson 35 : **Python Program Calculate Net Salary | Python Tutorial for Beginners**

Lesson 36 : **Nested If else in python | Python Tutorial for Beginners**

Lesson 37 :
Find Maximum or Minimum Number using Nested If Else | Python Tutorial for Beginners

Lesson 38 : **Logical AND Operator in Python | Python Tutorial for Beginners**

Lesson 39 : **Logical OR Operator in Python | Python Tutorial for Beginners**

Lesson 40 : **Logical NOT Operator in Python | Python Tutorial for Beginners**

Lesson 41 : **While Loop in Python | Python Tutorial for Beginners**

Lesson 42 :
Python Program Find Even or Odd Number in a Specific Range using While Loop | Python Tutorial

Lesson 43 :
Find the Sum of Digits in a Number in Python using While Loop | Python Tutorial for Beginners

Lesson 44 : **How to Find Factorial of Number in Python | Python Tutorial for Beginners**

Lesson 45 : **Print Table of Given Number in Python | Python Tutorial for Beginners**

Lesson 46 :
Python Program to Check a Number is Palindrome or Not | Python Tutorial for Beginners

Lesson 47 : **Print Fibonacci Series in python | Python Tutorial for Beginners**

Lesson 48 : **For Loop in Python | Python Tutorial for Beginners**

Lesson 49 :
Python Program to Print Table | Print Table of Any Number with Specific Range using For Loop

Lesson 50 :
Print all the number between 1 to N using For Loop | Python Programming Tutorial for Beginners

Lesson 51 : **Python Program Print Sum of N number using For Loop | Python Tutorial for Beginners**

Lesson 52 :
Python Program to Find Factorial of Any Number using For Loop | Python Tutorial for Beginners

Lesson 53 : **Break Statement and Continue Statement in Python | Python Tutorial for Beginners**
