About the course Create excel One click dashboard

Create excel One-click dashboard course, in this course teaches you how to create a powerful, interactive one-click dashboard in Excel from scratch. You will learn how to organize and display data visually, using Excel features like pivot tables, charts, slicers, and dynamic ranges. The course covers the step-by-step process of building a dashboard that updates with just a single click, making it easier to monitor key metrics and track performance in real time. You'll also learn how to use Excelâ€™s advanced functions, such as VLOOKUP, INDEX, and MATCH, to pull data dynamically into your dashboard. By the end of the course, you'll be able to create a professional, user-friendly dashboard that is highly automated, visually appealing, and perfect for business reporting or personal use. This course is ideal for anyone looking to streamline their data presentation and create efficient, interactive reports in Excel.
