About the course Create a mobile app from an excel

Create a mobile app from an excel course, in this course teaches you how to transform a simple Excel sheet into a functional mobile app without coding expertise. Learn to design user-friendly apps by importing data from Excel, creating interactive forms, and linking dynamic features. Discover tools and platforms that simplify app creation, enabling you to build apps for various purposes, such as task management, inventory tracking, or data visualization. The course covers app design, data synchronization, and deployment for both Android and iOS. Whether youâ€™re a beginner or looking to streamline workflows, this course equips you with the skills to leverage Excel as a powerful foundation for mobile app development, making app creation accessible and efficient.

Computer Softwares Category's Courses

Course Lesson(74)
