About the course Create a Pop Up calendar in excel

Create a Pop-Up calendar in excel, in this course is designed to teach you how to build a fully functional pop-up calendar in Excel, making it easier to manage and input dates efficiently. Learn to integrate a dynamic calendar that appears within your Excel workbook, allowing users to select dates with a simple click. The course covers essential tools such as data validation, conditional formatting, and Excel VBA (Visual Basic for Applications) to create and customize the calendar. You'll also explore advanced features like linking the calendar to specific cells, automating time pickers, and enhancing user interaction. Ideal for professionals and Excel enthusiasts, this course equips you with the skills to design intuitive, user-friendly pop-up calendars to streamline scheduling and data entry tasks.
