About the course Flappy toucan game development in scratch

Flappy toucan game development in scratch, in this course Learn to create your very own Flappy Toucan game using Scratch, the beginner-friendly visual programming platform. This course guides you step-by-step through designing and coding an interactive game where a toucan flies through obstacles while earning points. Master essential programming concepts such as loops, events, and conditional statements, and learn how to implement gravity, user-controlled movement, collision detection, and scoring mechanisms. Explore creative customization options, from designing unique backgrounds to adding sound effects. Perfect for beginners, this course fosters problem-solving and creativity while building a fun, playable game. By the end, you'll have a complete Flappy Toucan game and the skills to tackle more exciting projects in Scratch.

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Scratch Programming Flappy Toucan Game Introduction**

Lesson 2 : **Scratch Programming Flappy Toucan Game Creating Obstacles**

Lesson 3 : **Scratch Programming Flappy Toucan Game Program the Flight**

Lesson 4 : **Scratch Programming Flappy Toucan Game Program the Obstacle Movement**

Lesson 5 : **Scratch Programming Flappy Toucan Game Program the Collisions**
