About the course Installing android studio for kotlin

Installing android studio for kotlin, in this course provides a detailed guide to installing and setting up Android Studio for Kotlin development, ensuring a seamless start to building Android apps. Learn how to download the latest version of Android Studio, install it step by step, and configure essential settings for Kotlin projects. The course covers setting up the SDK Manager, creating your first Kotlin-based Android project, and understanding the IDE layout and tools. Youâ€™ll also explore key configurations like emulator setup for testing and optimizing Android Studio performance. Perfect for beginners, this course ensures youâ€™re equipped with the tools and knowledge to start your Kotlin Android development journey effectively.

Computer Science Category's Courses

Course Lesson(140)

Lesson 1 : **Kotlin android tutorial 01 Install Android Studio**

Lesson 2 : **Kotlin android tutorial 02 Build Your First Android App**

Lesson 3 : **Kotlin android tutorial 03 Find my age Preview**

Lesson 4 : **Kotlin android tutorial 04 Layout design with constraint layout**

Lesson 5 : **Kotlin android tutorial 05 Implement App code**

Lesson 6 : **Kotlin android tutorial 06 Debug and Find Errors**

Lesson 7 : **Kotlin android tutorial 07 Tic Tac Toy overview**

Lesson 8 : **Kotlin android tutorial 08 Layout design with Table Layout**

Lesson 9 : **Kotlin android tutorial 09 Buttons call event**

Lesson 10 : **Kotlin android tutorial 10 Find winner**

Lesson 11 : **Kotlin android tutorial 11 Play with device**

Lesson 12 : **Kotlin android tutorial 12 Multi Level Game**

Lesson 13 : **Kotlin android tutorial 13 Calculator preview**

Lesson 14 : **Kotlin android tutorial 14 Layout design**

Lesson 15 : **Kotlin android tutorial 15 Add colors to app**

Lesson 16 : **Kotlin android tutorial 16 Fix Design issue**

Lesson 17 : **Kotlin android tutorial 17 Number Click**

Lesson 18 : **Kotlin android tutorial 18 Add math operations**

Lesson 19 : **Kotlin android tutorial 19 Margin buttons**

Lesson 20 : **Kotlin android tutorial 20 Percent and Clean**

Lesson 21 : **Kotlin android tutorial 21 Supporting Multiple Screens**

Lesson 22 : **Kotlin android tutorial 22 Pockemon game overview**

Lesson 23 : **Kotlin android tutorial 23 Setting the project and use Google Map API**

Lesson 24 : **Kotlin android tutorial 24 Add marker with image on Map**

Lesson 25 : **Kotlin android tutorial 25 Request on run time permission**

Lesson 26 : **Kotlin android tutorial 26 Show player location on the map**

Lesson 27 : **Kotlin android tutorial 27 Place Pockemons on the map**

Lesson 28 : **Kotlin android tutorial 28 Catch Pockemon**

Lesson 29 : **Kotlin android tutorial 29 Zoo App preview**

Lesson 30 : **Kotlin android tutorial 30 ListView layout design**

Lesson 31 : **Kotlin android tutorial 31 Load list View with Data**

Lesson 32 : **Kotlin android tutorial 32 Load different views in List View**

Lesson 33 : **Kotlin android tutorial 33 List View events**

Lesson 34 : **Kotlin android tutorial 34 Add or Remove item to list View**

Lesson 35 : **Kotlin android tutorial 35 Support Different image size**

Lesson 36 : **Kotlin android tutorial 36 Restaurant menu preview**

Lesson 37 : **Kotlin android tutorial 37 Design GridView Layout**

Lesson 38 : **Kotlin android tutorial 38 Load gridView with list of foods**

Lesson 39 : **Kotlin android tutorial 39 Show Food details**

Lesson 40 : **Kotlin android tutorial 40 Sunrise App preview**

Lesson 41 : **Kotlin android tutorial 41 HTTP calls**

Lesson 42 : **Kotlin android tutorial 42 Json and XML**

Lesson 43 : **Kotlin android tutorial 43 City Sunrise App UI layout design**

Lesson 44 : **Kotlin android tutorial 44 City Sunrise App HTTP calls and JSON read**

Lesson 45 : **Kotlin android tutorial 45 Add nice Shape and rectangle for layout**

Lesson 46 : **Kotlin android tutorial 46 Sqlite database My Notes Approve review**

Lesson 47 : **Kotlin android tutorial 47 Design notes ListView**

Lesson 48 : **Kotlin android tutorial 48 List dummy notes use ListView**

Lesson 49 : **Kotlin android tutorial 49 Design Add notes layout**

Lesson 50 : **Kotlin android tutorial 50 Use Menu bar and Intent**

Lesson 51 : **Kotlin android tutorial 51 Styles**

Lesson 52 : **Kotlin android tutorial 52 Add notes to Sqlite database**

Lesson 53 : **Kotlin android tutorial 53 List notes from Sqlite database**

Lesson 54 : **Kotlin android tutorial 54 Delete notes from Sqlite database**

Lesson 55 : **Kotlin android tutorial 55 Update notes in Sqlite database**

Lesson 56 : **Kotlin android tutorial 56 Support different languages and change app icon**

Lesson 57 : **Kotlin android tutorial 57 The Activity Lifecycle**

Lesson 58 :
Kotlin android tutorial 58 Implement navigation with the Navigation Architecture Component

Lesson 59 : **Kotlin android tutorial 59 What is Firebase and Connect to Firebase**

Lesson 60 : **Kotlin android tutorial 60 Firebase Authentication**

Lesson 61 : **Kotlin android tutorial 61 Firebase Online Tic tac toy game overview**

Lesson 62 : **Kotlin android tutorial 62 Connect to firebase and Firebase Analytics**

Lesson 63 : **Kotlin android tutorial 63 Login Page design**

Lesson 64 : **Kotlin android tutorial 64 Firebase authentication With email and password**

Lesson 65 : **Kotlin android tutorial 65 Add player info In firebase Database**

Lesson 66 : **Kotlin android tutorial 66 Play Game layout Design**

Lesson 67 : **Kotlin android tutorial 67 Send Game Play request**

Lesson 68 : **Kotlin android tutorial 68 Accept game invitation**

Lesson 69 : **Kotlin android tutorial 69 Play game live**

Lesson 70 : **Kotlin android tutorial 70 Notification to play game**

Lesson 71 : **Kotlin android tutorial 71 Notification Channels**

Lesson 72 : **Kotlin android tutorial 72 Firebase Twitter App overview**

Lesson 73 : **Kotlin android tutorial 73 Design login layout**

Lesson 74 : **Kotlin android tutorial 74 Load image from Phone**

Lesson 75 : **Kotlin android tutorial 75 Upload images to firebase**

Lesson 76 : **Kotlin android tutorial 76 Tweets layout design**

Lesson 77 : **Kotlin android tutorial 77 Add post**

Lesson 78 : **Kotlin android tutorial 78 Load posts**

Lesson 79 : **Kotlin android tutorial 79 Show post user info**

Lesson 80 : **Kotlin android tutorial 80 Show loading now**

Lesson 81 : **Kotlin android tutorial 81 Show Ads between feeds**

Lesson 82 : **Kotlin android tutorial 82 Firebase Cloud Messaging**

Lesson 83 : **Kotlin android tutorial 83 Media Player for play online and Local songs App overview**

Lesson 84 : **Kotlin android tutorial 84 Media player layout design**

Lesson 85 : **Kotlin android tutorial 85 List songs**

Lesson 86 : **Kotlin android tutorial 86 Play songs from online URL**

Lesson 87 : **Kotlin android tutorial 87 Play songs from Phone storage**

Lesson 88 : **Kotlin android tutorial 88 Complete Alarm app overview**

Lesson 89 : **Kotlin android tutorial 89 Android Studio Updates**

Lesson 90 : **Kotlin android tutorial 90 Layout design**

Lesson 91 : **Kotlin android tutorial 91 Fragments**

Lesson 92 : **Kotlin android tutorial 92 Broadcast Receiver and Service concept**

Lesson 93 : **Kotlin android tutorial 93 Broadcast Receiver and Set alarm time**

Lesson 94 : **Kotlin android tutorial 94 Shared Preferences and start app with OS**

Lesson 95 : **Kotlin android tutorial 95 Show Notification**

Lesson 96 : **Kotlin android tutorial 96 Light sensor Run music when light goes to off in room**

Lesson 97 : **Kotlin android tutorial 97 Accelerometer sensor Nimbuzz vibrate when phone is shake**

Lesson 98 : **Kotlin android tutorial 98 Find my Phone App Preview**

Lesson 99 : **Kotlin android tutorial 99 User login with phone number**

Lesson 100 : **Kotlin android tutorial 100 Menus for Contact and main activity**

Lesson 101 : **Kotlin android tutorial 101 Dummy Contact List data**

Lesson 102 : **Kotlin android tutorial 102 Pick Contacts from phone**

Lesson 103 : **Kotlin android tutorial 103 Save my trackers in Shared Ref**

Lesson 104 : **Kotlin android tutorial 104 Firebase signIn Anonymously**

Lesson 105 : **Kotlin android tutorial 105 Save user info Firebase**

Lesson 106 : **Kotlin android tutorial 106 Save my trackers in Realtime database**

Lesson 107 : **Kotlin android tutorial 107 People Who I Find Dummy Data**

Lesson 108 : **Kotlin android tutorial 108 People Who I Find Firebase Data**

Lesson 109 : **Kotlin android tutorial 109 Load user s contacts**

Lesson 110 : **Kotlin android tutorial 110 Send phone location to the server**

Lesson 111 : **Kotlin android tutorial 111 Find missing phone location**

Lesson 112 : **Kotlin android tutorial 112 Services Vs Broadcast receiver Updates**

Lesson 113 : **Kotlin android tutorial 113 Service Run App in background**

Lesson 114 : **Kotlin android tutorial 114 Run App with OS**

Lesson 115 : **Kotlin android tutorial 115 What we Will Build**

Lesson 116 : **Kotlin android tutorial 116 Build MYSQL Database schema**

Lesson 117 : **Kotlin android tutorial 117 Build MYSQL database**

Lesson 118 : **Kotlin android tutorial 118 PHP Web service and MYSQL Register**

Lesson 119 : **Kotlin android tutorial 119 Connect to Firebase adn Add Assets**

Lesson 120 : **Kotlin android tutorial 120 Design Login and Register Pages**

Lesson 121 : **Kotlin android tutorial 121 Sign In Anonymously**

Lesson 122 : **Kotlin android tutorial 122 Select image from device and upload it to firebase**

Lesson 123 : **Kotlin android tutorial 123 Register User**

Lesson 124 : **Kotlin android tutorial 124 Disable button**

Lesson 125 : **Kotlin android tutorial 125 PHP Web service and MYSQL Login**

Lesson 126 : **Kotlin android tutorial 126 User Login**

Lesson 127 : **Kotlin android tutorial 127 Save user Data in Phone**

Lesson 128 : **Kotlin android tutorial 128 PHP Web service and MYSQL Add Post**

Lesson 129 : **Kotlin android tutorial 129 Desgin Layout for list post**

Lesson 130 : **Kotlin android tutorial 130 Add tweets**

Lesson 131 : **Kotlin android tutorial 131 PHP Web service and MYSQL List Post**

Lesson 132 : **Kotlin android tutorial 132 List posts**

Lesson 133 : **Kotlin android tutorial 133 One person posts**

Lesson 134 : **Kotlin android tutorial 134 PHP Web service and MYSQL follow un follow**

Lesson 135 : **Kotlin android tutorial 135 PHP Web service and MYSQL Is following**

Lesson 136 : **Kotlin android tutorial 136 Node js Web service and MYSQL**

Lesson 137 : **Kotlin android tutorial 137 C Web service and SQL Server**

Lesson 138 : **Kotlin android tutorial 138 Publish App to Store**

Lesson 139 : **Kotlin android tutorial 139 Convert app to source code**

Lesson 140 : **Kotlin android tutorial 140 Avoid Convert app to source code**
