About the course Skills for software testing careers

Skills for software testing, in this course equips you with the essential skills required to succeed in a software testing career. You will learn to design effective test cases, track and report bugs, and execute various testing techniques, including functional, regression, and exploratory testing. The course emphasizes mastering technical tools like test management systems and bug trackers while building key soft skills such as critical thinking, problem-solving, and effective communication. Youâ€™ll explore real-world testing scenarios, collaboration in agile teams, and how to adapt to dynamic project environments. Additional focus areas include API testing, cross-browser testing, and learning the basics of automation tools to enhance your job readiness. By the end of this course, youâ€™ll have the knowledge and confidence to tackle testing challenges, stand out in job interviews, and contribute effectively to quality assurance in software projects. Whether you're starting your testing career or looking to upgrade your skills, this course provides the foundation for success.

Computer Science Category's Courses

Course Lesson(68)

Lesson 1 : **Key Skills to get Software Testing Job Easily shorts softwaretestingmentor**

Lesson 2 : **Can Automation Testing Replace Manual Testing shorts**

Lesson 3 : **Top 3 Skills to Become a Good Automation Tester shorts**

Lesson 4 : **How to use LinkedIn for Creating Resume and Job Search shorts softwaretestingmentor**

Lesson 5 :
What is Software Testing Software Testing Interview Question 1 shorts softwaretestingmentor

Lesson 6 : **Why is Software Testing Important Software Testing Interview Question 2 shorts**

Lesson 7 :
Difference Between SDLC and STLC Testing Interview Question 3 shorts softwaretestingmentor

Lesson 8 : **Difference Between Testing and Debugging Software Testing Interview Question 4 shorts**

Lesson 9 :
Difference Between Error Defect and Failure Software Testing Interview Question 5 shorts

Lesson 10 : **What is the most important thing in our life**

Lesson 11 : **5 must have analytical skills for your resume shorts**

Lesson 12 : **What is Ad Hoc Testing Software Testing Interview Question shorts**

Lesson 13 : **What is Big Bang Testing Software Testing Interview Question shorts**

Lesson 14 : **What is Acceptance Criteria Software Testing Interview Question shorts**

Lesson 15 : **What is Impact Analysis in Software Testing Software Testing Interview Question shorts**

Lesson 16 : **What is Code Coverage Software Testing Interview Question shorts**

Lesson 17 : **What are Different Levels of Testing Software Testing Interview Question shorts**

Lesson 18 : **What is Selenium Selenium Interview Questions shorts**

Lesson 19 :

What are different components of Selenium Selenium Interview Questions and Answers shorts

Lesson 20 :
How to Handle Synchronisation Issues in Selenium Selenium Interview Questions and Answers shorts

Lesson 21 :
What are different Waits in Selenium WebDriver Selenium interview Questions and Answers shorts

Lesson 22 : **What is Unit Testing Software Testing Interview Questions shorts**

Lesson 23 : **What is Integration Testing Software Testing Interview Questions and Answers shorts**

Lesson 24 : **What is System Testing Software Testing Interview Questions and Answers shorts**

Lesson 25 : **What is Acceptance Testing Software testing interview Questions and Answers shorts**

Lesson 26 : **What is Black Box Testing Software Testing Interview Questions shorts**

Lesson 27 : **What is White Box Testing Software Testing Interview Questions and Answers shorts**

Lesson 28 : **What is functional testing Software testing interview Question shorts**

Lesson 29 : **Can Software Testing professionals make INR 1 Crore a year shorts**

Lesson 30 : **What is non functional testing Software testing interview Question shorts**

Lesson 31 : **What is Regression Testing Software testing interview Questions shorts**

Lesson 32 :
Difference between Retesting and Regression Testing Software Testing Interview Question shorts

Lesson 33 :
What is difference between Verification and Validation Software testing Interview Question shorts

Lesson 34 : **Is Automation Testing Highly Overrated shorts**

Lesson 35 : **Most important skill that will make you awesome Software Testing Professional shorts**

Lesson 36 : **What is Defect Cascading Software Testing Interview Question and Answers shorts**

Lesson 37 : **What are Latent Defects Software Testing Interview Questions and Answers shorts**

Lesson 38 : **Wish You all a very Happy Holi shorts**

Lesson 39 : **Is it possible to get an IT Job if you have a Career Break shorts**

Lesson 40 : **Why should you stop comparing with others shorts**

Lesson 41 : **Practical Software Testing Training Instructor Led Batch from 1st July 2022 shorts**

Lesson 42 : **Why should you start software testing in early stages of SDLC shorts**

Lesson 43 : **Is Automation Testing Easy shorts**

Lesson 44 : **Is Software Testing a Good Career Option See how much Software Testers earn shorts**

Lesson 45 : **Can Software Testers make extra Money Online shorts**

Lesson 46 : **Announcement New Test Automation Series Coming from Today shorts**

Lesson 47 : **Which automation tutorial series you want me to start next Comment below shorts**

Lesson 48 : **Free Manual Testing Classes for Freshers and College Students shorts**

Lesson 49 :

Package hike from 3 Lacs INR to 2 Cr INR Key Info to look in videos with similar titles shorts

Lesson 50 : What is future of Software Testing shorts

Lesson 51 : Are we in recession What to do to survive recession shorts

Lesson 52 : New series announcement Master Test Management in Jira with Xray shorts

Lesson 53 : How to test any user story in Agile Projects Manual Testing Interview Question shorts

Lesson 54 : Learn API Testing with Postman Complete API Testing Course shorts

Lesson 55 : Software testing interview Questions and Answers Manual Testing Mock Interview shorts

Lesson 56 : Why NOT to use FAKE work experience in Job Search shorts

Lesson 57 : How to start a Career in Software Testing shorts

Lesson 58 : What is In Sprint Test Automation Software Testing Interview Questions shorts

Lesson 59 : What is Shift Left Testing Manual Testing Interview Questions shorts

Lesson 60 : Use Case vs User Story Software Testing Interview Questions shorts

Lesson 61 : Are you interested in Manual Testing Interview Question and Answers Series shorts

Lesson 62 : Why Software Testing is Important shorts manualtesting

Lesson 63 : Software Testing Behavioural Interview Question 1 Why should we Hire You shorts

Lesson 64 : Can Automation Testing Replace Manual Testing shorts

Lesson 65 : Is Automation Testing better than Manual Testing shorts

Lesson 66 : How to manage Regression Testing in Agile Development shorts

Lesson 67 : Brief introduction to Test Planning shorts

Lesson 68 : New series survey Are you interested Please watch and comment shorts
