# About the course SharePoint techniques for beginners

### Course Presenter : Learnit Training

SharePoint techniques, in this course we will learn about the SharePoint Techniques course, focusing on advanced tools and strategies to maximize productivity and collaboration. You will explore how to create, customize, and manage SharePoint sites, document libraries, and lists. This course covers techniques for building workflows, automating tasks, and managing permissions to ensure secure and efficient data sharing. Learn how to design engaging intranet portals, integrate SharePoint with other Microsoft 365 tools, and create interactive dashboards. Whether for project management, content organization, or team collaboration, this course equips you with the skills to leverage SharePointâ€™s full potential to streamline workflows and improve team productivity. Perfect for intermediate and advanced users. Learnit Training
