About the course Line charts in tableau for beginners

Course Presenter : Data with Baraa

Line charts in tableau, in this course we will learn about the fundamentals of creating and customizing Line charts in Tableau. Line charts are essential for visualizing trends, patterns, and data variations over time or across continuous variables. This course will guide you through the step-by-step process of building effective Line charts, including selecting appropriate data, configuring axes, and enhancing visual appeal with colors, labels, and tooltips. You'll also explore advanced features such as dual-axis Line charts, adding trend lines, and integrating interactivity for dynamic dashboards. By the end of this course, you'll have the skills to effectively use Line charts in Tableau to analyze data trends and present insights with clarity and precision. Data with Baraa
