About the course Business Intelligence BI fundamentals

Course Presenter : Data with Baraa

Business Intelligence (BI) course, in this course we will learn about the essentials of Business Intelligence (BI), focusing on transforming raw data into actionable insights to support data-driven decision-making. The course covers key BI concepts, including data collection, integration, and visualization, as well as the use of popular BI tools like Power BI, Tableau, and SQL. Youâ€™ll explore how to design dashboards, generate reports, and analyze trends to uncover valuable insights for business growth. The course also delves into advanced topics such as predictive analytics, real-time BI, and performance metrics. Through hands-on projects and practical exercises, youâ€™ll develop the skills to implement BI strategies, create impactful visualizations, and present data effectively. By the end of the course, youâ€™ll be equipped to harness BI to drive efficiency, optimize operations, and support decision-making in any organization. Perfect for professionals and aspiring analysts. Data with Baraa
