About the course Tableau desktop Installation

Course Presenter : Data with Baraa

Tableau desktop Installation, in this course we will learn about the complete process of downloading, installing, and setting up Tableau Desktop. Designed for beginners, this course covers the step-by-step guide to downloading Tableau Desktop, meeting system requirements, and understanding the difference between Tableau Public and Tableau Desktop. Youâ€™ll explore how to activate licenses, set up the software for personal or professional use, and troubleshoot common installation issues. Additionally, weâ€™ll cover best practices for installation on both Windows and Mac platforms and discuss how to manage updates for the latest versions of Tableau Desktop. By the end of this course, you will have successfully installed and configured Tableau Desktop, ready to explore its powerful data visualization and analytics capabilities. Perfect for students, professionals, and anyone starting their Tableau journey. Data with Baraa

Computer Softwares Category's Courses
