About the course Google Sheets for beginners

Course Presenter : Couplerâ€¤io Academy

Google Sheets , in this course we will learn about the powerful features of Google Sheets and how to use them effectively. From basic spreadsheet navigation to advanced functions, you'll gain a comprehensive understanding of Google Sheets. Explore data entry, formatting, and creating dynamic tables. Learn essential formulas like SUM, AVERAGE, VLOOKUP, and IF, and discover how to visualize data using charts and graphs. Dive into collaborative features, data validation, conditional formatting, and pivot tables. This course will also cover tips for automating tasks with Google Sheets and integrating it with other tools. By the end of the course, youâ€™ll be equipped to manage, analyze, and present data efficiently, making it ideal for students, professionals, and business owners. Couplerâ€¤io Academy

Computer Softwares Category's Courses
