About the course Gmail spam filters for beginners

Course Presenter : dottotech

Gmail spam filters, in this course we will learn about Gmail spam filters, their functionality, and how to effectively manage unwanted emails. Youâ€™ll explore the mechanisms Gmail uses to detect spam, including analyzing content, sender authentication, and user reporting. The course will cover essential skills like customizing spam settings, using whitelists and blacklists, and managing false positives. Youâ€™ll also learn how to prevent your emails from being marked as spam, troubleshoot spam filter issues, and ensure secure email communication. By the end of the course, youâ€™ll have the expertise to optimize Gmail spam filters for a cleaner, more organized inbox and improved email productivity. dottotech
