# About the course Excel dashboard essentials for beginners

### Course Presenter : Data Tutorials

Excel dashboard essentials, in this course we will explore the foundational skills needed to create professional and interactive dashboards in Excel. Youâ€™ll learn how to prepare and organize data effectively, use key functions like VLOOKUP, IF, and SUM, and build dynamic visualizations with charts and graphs. Weâ€™ll cover essential tools such as Pivot Tables, Pivot Charts, and Slicers to create dashboards that are both informative and user-friendly. Additionally, youâ€™ll discover tips for designing layouts, using conditional formatting, and optimizing performance for large datasets. Real-world examples and hands-on exercises will guide you through the process of building dashboards that present complex data clearly and concisely. Whether youâ€™re new to Excel or looking to enhance your reporting skills, this course will provide you with the knowledge and confidence to create dashboards that deliver actionable insights.
