About the course Excel Power query for beginners

Course Presenter : Innozant

Excel Power query, in this course we will learn about the Excel Power Query course, a robust tool for data transformation and automation. Power Query simplifies the process of importing, cleaning, and preparing data from various sources, such as Excel, databases, and online platforms. You will discover how to automate repetitive tasks, transform messy datasets into structured formats, and create connections to dynamic data sources. This course covers essential topics like merging, appending, filtering, and pivoting data, empowering you to handle complex workflows with ease. Through hands-on exercises, youâ€™ll explore advanced features, including custom columns, parameters, and Power Query formulas, enabling you to tackle real-world scenarios effectively. Whether you're new to Power Query or seeking to enhance your skills, this course provides practical insights and tools to elevate your data management and analysis in Excel, making your workflows more efficient and productive. Computer Softwares Category's Courses

Course Lesson(28)

Lesson 1 : **Power Query Explained Life Changing Tool Excel Power Query Tutorial Step by Step**

Lesson 2 : **Query Editor in Power Query Installing the Power Query Add in Excel 2010 and 2013**

Lesson 3 : **Power Query Getting Data from Current Workbook Table Range to Power Query**

Lesson 4 : **Import Data from Text Files using Power Query in Excel**

Lesson 5 : **Import and Transform Data from CSV and another Excel Workbook using Power Query**

Lesson 6 :
Power Query Append Method Combine Excel Worksheets in a Workbook using Power Query Append Method

Lesson 7 :
Power Query Formula Method Combine Excel Worksheets in a Workbook using Power Query Formula

Lesson 8 : **Append Data from Multiple Workbooks into One Table in Excel Using Power Query**

Lesson 9 : **Append Data from Folder Combine Multiple Excel Files into One using Power Query**

Lesson 10 :
Combine Data from Folder Without Excel Tables Get a List of File names from a Folder in Excel

Lesson 11 : **Merge Tables Using Power Query Vlookup Alternative**

Lesson 12 : **Power Query Joins Explained Types of Joins Merges in Power Query BI**

Lesson 13 : **Power Query Split Columns and Rows in Excel Split Data into Rows with Power Query**

Lesson 14 : **Merge Columns with Power Query Advanced Concatenate Power Query Step by Step**

Lesson 15 : **Power Query Pivot and Unpivot Column Excel Power Query Course**

Lesson 16 : **Combine All Sheets in a File Power Query Combine Awesome Method**

Lesson 17 : **Query Management Delete Manage Copy Backup Results**

Lesson 18 : **Power Query Date Transformation Extract Age Weekday Week number Days**

Lesson 19 : **Power Query Date Creation from Columns or Text**

Lesson 20 : **Power Query Time Transformation Awesome Tricks Power Query Tutorial**

Lesson 21 : **Power Query M Language Introduction M Language Basics**

Lesson 22 : **Power Query Basic M Language Logic Power Query Step by Step Tutorial**

Lesson 23 : **Adding a Custom Column in Power Query Excel Power Query Tutorial**

Lesson 24 : **Custom Column Template Creation Power Query Hidden Feature**

Lesson 25 : **Get Connect Google Sheet Data into Excel with Power Query**

Lesson 26 : **Power Query List Record Referencing**

Lesson 27 : **Power Query List Record Table Explanation with Example**

Lesson 28 : **Power Query Hidden Tricks Features**
