Mindluster Platform

About the course Free video editing software for beginners

Course Presenter : Santrel Media

Free video editing software, in this course youâ€™ll learn how to edit professional-quality videos using free video editing software without needing expensive tools. Weâ€™ll cover the best free editing programs, how to install and navigate their interfaces, and essential editing techniques such as cutting, trimming, adding effects, transitions, text overlays, and background music. Youâ€™ll also discover advanced features like color correction, green screen effects, and motion tracking to enhance your videos. Whether you're creating content for YouTube, social media, or personal projects, this course will help you develop the skills to edit, export, and optimize videos for different platforms using free tools.
