About the course Become a mobile developer

Course Presenter : Programming with Mosh

Become a mobile developer, in this course Start your journey to becoming a mobile developer and learn how to build apps for Android and iOS using the latest technologies. In this course, we will cover programming languages like Java, Kotlin, Swift, and Dart, explore frameworks like Flutter and React Native, and understand how to design, develop, and deploy mobile applications. Youâ€™ll gain hands-on experience in UI/UX design, API integration, database management, and app security. By the end of this course, you will have built real-world projects and be ready to publish your apps on Google Play and App Store. Whether you are a beginner or an aspiring developer, this course will equip you with the skills needed to start a career in mobile development. Programming with Mosh
