About the course Looker Studio for beginners

Course Presenter : Umar Tazkeer

Looker Studio, in this course we will learn about the Looker Studio Course, covering how to create dynamic, data-driven reports and dashboards. Youâ€™ll explore data visualization techniques, data source integration, and interactive reporting tools. Learn to connect Looker Studio with Google Analytics, Google Sheets, and other databases to automate reporting. Discover advanced features such as calculated fields, custom metrics, and real-time data monitoring to enhance business decision-making. The course also covers data storytelling, filtering, and sharing insights with teams and stakeholders. Whether you're a marketer, analyst, or business owner, this course provides the skills to turn raw data into meaningful, actionable insights. By the end, you'll be able to design visually compelling dashboards that improve data analysis and reporting efficiency. Umar Tazkeer
