About the course Oracle SQL for beginners

Course Presenter : Great Learning

Oracle SQL, in this course we will learn about Oracle SQL, exploring the fundamentals of SQL programming using Oracle Database. Youâ€™ll start with database setup, writing basic SQL queries, and performing CRUD operations. The course covers advanced topics such as joins, subqueries, functions, stored procedures, triggers, and indexing. Youâ€™ll also learn about PL/SQL programming, performance tuning, and database security to optimize query execution and manage large datasets efficiently. Through hands-on exercises, you'll gain practical experience in managing and manipulating relational data using Oracle SQL, making this course ideal for beginners and professionals looking to enhance their database skills. Great Learning

Programming Category's Courses

Course Lesson(8)

Lesson 1 :
Introduction to Database Management System DBMS tutorial for beginners Great Learning

Lesson 2 : **Getting started with RDBMS DBMS tutorial for beginners Great Learning**

Lesson 3 : **SQL Tutorial for Beginners SQL Full Course Learn SQL for Beginners Great Learning**

Lesson 4 : **MySQL Tutorial for Beginners Introduction to MySQL Great Learning**

Lesson 5 : **Oracle SQL Tutorial Oracle DBA Oracle SQL for Beginners Great Learning**

Lesson 6 : **Learn PostgreSQL fast PostgreSQL for beginners**

Lesson 7 : **SQL vs NoSQL SQL NoSQL Differences Explained in 10 Mins SQL Tutorial Great Learning**

Lesson 8 : **Mongodb Tutorial for absolute beginners Getting Started with MongoDB Great Learning**
