Mindluster Platform

About the course Data mining for beginners

Course Presenter : Great Learning

Data mining, in this course youâ€™ll explore the core concepts and techniques of extracting useful patterns and insights from large datasets. Learn about classification, clustering, association rules, and predictive modeling. Understand real-world applications, preprocessing techniques, and popular tools used in data mining. Gain hands-on experience with data mining algorithms, evaluation metrics, and data visualization. Whether you're a beginner or looking to enhance your data analysis skills, this course will provide you with practical knowledge to uncover hidden trends in data. Start your Data Mining journey today and enhance your analytical expertise. Great Learning

Computer Science Category's Courses

Course Lesson(10)

Lesson 1 :
Python for Data Science Full Course Data Science Tutorials for Beginners in 2022 Great Learning

Lesson 2 : **Statistics for Data Science Probability and Statistics Statistics Tutorial Ph D Stanford**

Lesson 3 :
Machine Learning with Python Machine Learning Tutorial for Beginners Machine Learning Tutorial

Lesson 4 : **Data Science Full Course for Beginners 2023 11 Hours Data Science Tutorial**

Lesson 5 :
Artificial Intelligence Tutorial Artificial Intelligence Tutorial for Beginners AI Full Course

Lesson 6 :
Build your own chatbot using Python Python Tutorial for Beginners in 2022 Great Learning

Lesson 7 :
Data Mining for Beginners Data Mining Full course Learn Data Mining in 10 Hours Great Learning

Lesson 8 :
Deep learning Tutorial Deep learning Full Course 2022 Complete Deep Learning for Beginners

Lesson 9 :
Natural Language Processing In Artificial Intelligence NLP Demo AI Demo Great Learning

Lesson 10 :
Computer Vision Tutorial Image Processing Convolution Neural Network Great Learning
