About the course Flask python for beginners

Course Presenter : Great Learning

Flask python, in this course you'll master the essentials of Flask, a powerful micro web framework. Learn to set up a Flask environment, build dynamic web applications, handle routes, templates, forms, and databases. This course covers authentication, REST APIs, and deployment techniques. Whether you're a beginner or an experienced developer, you'll gain hands-on experience in creating scalable Flask applications. Explore how to integrate Flask with front-end technologies, manage user sessions, and optimize performance. By the end, you'll have a solid understanding of Flaskâ€™s capabilities and be ready to develop robust web applications with Python. Great Learning
