About the course Eco resin art for beginners

Course Presenter : Summer Girl Designs

Eco resin art, in this course introduces you to the world of sustainable, non-toxic resin crafting. In this course, we will learn about Eco Resin Art, covering techniques for creating stunning, eco-friendly resin pieces using plant-based or biodegradable resins. Discover how to mix and pour resin safely, embed dried flowers, natural pigments, and recycled materials into coasters, jewelry, and home decor. Learn advanced casting, sanding, and finishing techniques while minimizing environmental impact. Whether you're a beginner or an artist, this course helps you craft unique, sustainable resin art with an eco-conscious approach. Summer Girl Designs
