About the course 3D text animation in premiere pro

Course Presenter : Brooker Films

3D text animation in premiere pro, in this course we will learn about 3D text animation in Premiere Pro course, focusing on how to create eye-catching 3D-style text effects using built-in tools and creative techniques. You'll explore how to simulate depth, perspective, and lighting to give your text a realistic 3D look. The course will guide you through essential steps like using shadows, layering, and keyframes to animate text in a dynamic way. You'll also learn how to enhance your animations with motion blur, color effects, and background elements to create polished, cinematic text intros and titles. Whether you're editing videos for YouTube, ads, or presentations, this course will help you add a professional touch to your text animations using only Premiere Pro. By the end of the 3D text animation in Premiere Pro course, you'll be able to craft stunning 3D text sequences that grab your audience's attention. Brooker Films
