About the course Advanced colour selection techniques

Course Presenter : Satori Graphics

Advanced colour selection, in this course we will learn about advanced colour selection course and explore the techniques behind choosing the perfect colour combinations for impactful and harmonious designs. You'll dive deep into colour theory, psychological influence of colours, and how to apply them effectively across different media. This course will guide you through the use of advanced tools like Adobe Color, contrast checkers, and palette generators to ensure accessibility and brand alignment. Youâ€™ll also learn about colour harmonies, gradients, and modern trends in digital and print design. Whether you're designing for web, branding, or visual content, mastering advanced colour selection will elevate your design professionalism and visual storytelling. By the end of the course, youâ€™ll have the confidence to make strategic colour choices that enhance user experience, convey emotion, and align with the intended message of your work. Ideal for designers, marketers, and visual artists. Satori Graphics
