About the course UX design for product managers

Course Presenter : The Cutting Edge School

UX design for product managers, in this course is tailored for product managers who want to integrate user experience principles into their product development process. In this course, youâ€™ll learn the essentials of UX design, from user research and persona development to wireframing and usability testing. Weâ€™ll explore how to collaborate with UX designers, prioritize user needs, and align business goals with user-centered design. Youâ€™ll also gain insights into measuring UX success, identifying pain points, and iterating based on user feedback. By the end of this course, you'll be equipped with the skills to lead UX-driven product development, ensuring that the products you manage are not only functional but also intuitive and delightful for users. Get ready to make informed decisions that positively impact your productâ€™s user experience and market success. The Cutting Edge School
