About the course UX design essentials

Course Presenter : The Cutting Edge School

UX design essentials, in this course is designed for beginners who want to build a solid foundation in user experience design. In this course, you'll learn the core principles and techniques that are crucial for creating intuitive and engaging digital products. Weâ€™ll start by exploring the basics of user-centered design, understanding user needs through research, and crafting user personas. Youâ€™ll dive into wireframing and prototyping, using tools like Figma and Sketch to bring ideas to life. Weâ€™ll also cover usability testing to ensure that your designs are effective and meet user expectations. By the end of the course, youâ€™ll have the skills and knowledge to design simple yet functional user interfaces and create a seamless experience for users. Whether you're new to design or want to enhance your skills, this course will guide you through the essentials of UX design, preparing you for real-world challenges. The Cutting Edge School
