About the course UX UI design

Course Presenter : The Cutting Edge School

UX/UI design, in this course is designed to give you a comprehensive understanding of both User Experience (UX) and User Interface (UI) design. In this course, weâ€™ll cover the essential concepts and techniques used to create user-centered digital products. Youâ€™ll learn how to conduct user research, create user personas, and develop wireframes and prototypes. Weâ€™ll also explore the principles of UI design, focusing on visual design, color theory, typography, and layout. Through hands-on exercises and real-world examples, youâ€™ll gain practical experience in using industry-standard tools like Figma and Adobe XD. The course will also introduce usability testing methods, helping you refine your designs based on user feedback. By the end of this course, youâ€™ll have the skills to create intuitive, aesthetically pleasing, and user-friendly digital interfaces. Whether you're starting a career in design or enhancing your skills, this course is your gateway to mastering UX/UI design. The Cutting Edge School
