About the course Pine script

Course Presenter : Financial Programming with Ritvik CFA

Pine script, in this course youâ€™ll learn how to write and customize your own trading indicators and strategies on TradingView. From the basics of Pine Script syntax to building complete trading strategies with backtesting and alerts, this course guides you step-by-step. Whether youâ€™re a beginner or a trader looking to automate your ideas, youâ€™ll gain the tools to turn your concepts into code. We'll cover everything from plotting moving averages, working with RSI and MACD, to scripting entry and exit rules. No prior coding experience is required. Start your Pine Script journey today and bring your trading ideas to life on TradingView with practical projects and real-time examples. Financial Programming with Ritvik CFA
