About the course PineConnector settings

Course Presenter : The Art of Trading

PineConnector settings, in this course learn how to seamlessly connect your TradingView strategies to MT4 or MT5 using PineConnector. In this course, we will learn how to configure PineConnector settings step by stepâ€”from setting up the webhook URL in TradingView alerts to customizing trade parameters like symbol, lot, sl, tp, and magic in your Pine Script alerts. You'll discover how to securely use your API key, properly install the PineConnector Expert Advisor (EA) on MetaTrader, and ensure real-time order execution. Whether you're sending buy/sell alerts or creating automated strategies, this course will help you master the complete setup and avoid common mistakes. Weâ€™ll also cover how to troubleshoot errors and optimize your PineConnector workflow for smoother, faster, and more accurate trading. By the end of this course, you'll be confident in automating your trades from TradingView to MetaTrader using PineConnector with full control. Join now and streamline your trading automation.
