About the course Pine script updates

Course Presenter : The Art of Trading

Pine script updates, in this course stay up to date with the latest enhancements, features, and changes in Pine Script, TradingViewâ€™s powerful scripting language. In this course, we will learn how to transition from older versions like v3 and v4 to the latest v5, understand syntax improvements, explore newly added functions, and leverage performance upgrades for smoother strategy execution. Weâ€™ll dive into practical examples that showcase how to refactor existing code, update your indicators or strategies, and use new capabilities like matrix functions, advanced plotting tools, and extended alert conditions. Whether you're a beginner maintaining simple scripts or an advanced trader managing complex strategies, this course helps you write cleaner, faster, and more efficient Pine Script. By the end, youâ€™ll be fully prepared to take advantage of everything the latest Pine Script updates have to offer. Join now and future-proof your trading scripts on TradingView. The Art of Trading
