About the course Pine script essentials

Course Presenter : The Art of Trading

Pine script essentials, in this course we will learn about the core building blocks of Pine Scriptâ€”TradingViewâ€™s powerful scripting language for creating custom indicators and strategies. This course is designed for beginners who want to understand how to write, read, and modify Pine Script with confidence. Weâ€™ll start with the basic syntax and structure, then explore essential concepts like variables, functions, conditions, plotting, and inputs. Youâ€™ll learn how to create simple indicators, apply strategies, and trigger alerts. Weâ€™ll also cover common mistakes, how to troubleshoot errors, and best practices for clean and effective scripting. By the end of this course, you'll be ready to build your own custom scripts or modify existing ones to better suit your trading needs. Letâ€™s start the Pine Script Essentials Course and take the first step into the world of algorithmic trading on TradingView. The Art of Trading

Programming Category's Courses
