About the course Create a pareto chart in excel

Course Presenter : HOWTECH

Create a pareto chart in excel, in this course we will learn how to find and create a Pareto chart in Excel step by step. Youâ€™ll discover how to apply the 80/20 rule to your data using a combination of bar charts and line graphs, making it easy to visualize which factors have the greatest impact. This course will guide you through organizing your data, sorting it in descending order, calculating cumulative percentages, and creating the Pareto chart using Excelâ€™s built-in tools. Whether you're analyzing customer complaints, product defects, or any set of categorical data, this course will help you highlight priorities and make data-driven decisions. Itâ€™s perfect for beginners or professionals in quality control, business analysis, and project management. By the end, youâ€™ll be able to create and customize Pareto charts that clearly communicate insights and improve your reporting skills. HOWTECH
