About the course Windows 7 security

Course Presenter : HOWTECH

Windows 7 security, in this course we will learn about Windows 7 Security course. Youâ€™ll explore how to protect your computer and personal data by configuring essential security features built into Windows 7. We'll guide you through setting up and managing the Windows Firewall, enabling and customizing Windows Defender, and keeping your system updated through Windows Update. You will also learn how to create strong user accounts with proper password policies, use User Account Control (UAC) to prevent unauthorized changes, and manage file and folder permissions for added protection. The course also covers tips for safe browsing, protecting against malware, and using backup tools to secure your data. Designed for beginners and everyday users, this course gives you practical skills to keep your Windows 7 system safe and secure. HOWTECH

Computer Softwares Category's Courses

Course Lesson(30)
