About the course Create mobile games using chatGPT

Course Presenter : You B Tech

Create mobile games using chatGPT, in this course we will learn about how to create exciting mobile games using ChatGPTâ€”without writing a single line of code. Youâ€™ll explore how to turn your game ideas into real playable projects using simple prompts and AI assistance. From designing characters and writing engaging stories to building game logic and generating creative content, ChatGPT becomes your development partner. Weâ€™ll also cover tools that connect with ChatGPT to help you visually build your game, create levels, and add features. Whether you're creating a puzzle game, an adventure story, or an interactive quiz, this course guides you step-by-step through planning, creating, and even publishing your game on mobile platforms. Perfect for beginners, creatives, and non-coders, this course unlocks the future of game development with AI. Letâ€™s begin and bring your mobile game ideas to life with the power of ChatGPT.
