About the course E Commerce app using chatgpt

Course Presenter : You B Tech

E-Commerce app using chatgpt in hindi, in this course we will learn about how to create a complete e-commerce mobile app with the help of ChatGPT. Whether you're new to coding or already familiar with Flutter, this course will show you how to use ChatGPT to speed up the development processâ€”from planning your appâ€™s structure to generating code for product listings, shopping carts, payment integration, and user authentication. You'll discover how to ask ChatGPT the right prompts to build UI elements, manage state, connect with APIs, and debug issues. The course also covers designing a clean and modern interface and enhancing user experience with ChatGPT-powered suggestions. By the end of the course, youâ€™ll have a fully functional e-commerce app ready to launch or build upon. With ChatGPT as your assistant, you can create powerful mobile apps efficiently and with confidence. Letâ€™s begin building your E-Commerce App Using ChatGPT today. You B Tech
