About the course AI agents for beginners

Course Presenter : The Metaverse Guy

AI agents, in this course we will learn about AI agentsâ€”autonomous systems capable of perceiving their environment, making decisions, and taking actions to achieve specific goals. You'll explore how AI agents work, their core components such as perception, reasoning, and action, and how they can be applied in areas like customer service, education, finance, and personal productivity. Weâ€™ll guide you through building your own AI agents using tools like LangChain, AutoGPT, and Python, with hands-on projects to help reinforce your understanding. Whether youâ€™re aiming to create chatbots, virtual assistants, or task automation systems, this course provides a solid foundation to bring intelligent agents to life. No advanced programming is requiredâ€”just a passion for smart systems and innovation. Letâ€™s begin the AI Agents Course and unlock the power of autonomous intelligence. The Metaverse Guy

Artificial Intelligence Category's Courses

Course Lesson(3)

Lesson 1 :
MetaGPT Vibe Coding Multi Agent Collaboration This AI Team Builds ANYTHING You Can Imagine

Lesson 2 : **I challenged Manus AI to find 1M AI Startup Ideas It Actually Delivered Manus AI**

Lesson 3 :
Testing GenSpark AI Super Agent In Real World Scenarios RIGHT NOW FREE genspark ai
