About the course Figma components in UI3

Course Presenter : TD Sunshine

Figma components, in this course we will learn how to create, organize, and manage components in Figma to streamline your UI/UX design process. You'll discover how to build master components, use instances effectively, and apply variants for interactive and flexible design systems. We will explore best practices for naming, nesting, and structuring your components, while also learning how to collaborate with teams using shared libraries. Whether youâ€™re designing buttons, cards, or full layouts, this course will equip you with the skills to create consistent, scalable, and professional designs. Perfect for designers aiming to improve workflow efficiency and maintain design consistency across projects. Letâ€™s begin mastering Figma components and elevate your design game. TD Sunshine
