About the course Figma auto layout UI3

Course Presenter : TD Sunshine

Figma auto layout UI3, in this course learn how to design responsive and flexible interfaces with precision. In this course, we will explore the fundamentals of Auto Layout in the new UI3 interface of Figma. Youâ€™ll discover how to create layouts that adapt automatically to content and screen size changes, making your design process more efficient. Learn to control spacing, alignment, padding, and nesting of frames and components to build scalable design systems. We will dive into real-world UI examplesâ€”such as buttons, cards, and gridsâ€”and apply Auto Layout techniques to optimize them for responsiveness. With improvements in Figmaâ€™s UI3 in 2025, you'll also learn the latest features like intelligent layout suggestions and advanced frame behavior. This course is perfect for beginners and intermediate designers looking to master Auto Layout for modern design needs. Letâ€™s begin your journey toward cleaner, smarter, and more dynamic designs with Figma Auto Layout in UI3. TD Sunshine
