About the course Prototyping in figma

Course Presenter : TD Sunshine

Prototyping in figma, in this course we will learn how to use Figmaâ€™s prototyping tools to simulate user interactions, build navigation flows, and test user experiences before development begins. Youâ€™ll discover how to link frames, add transitions, use Smart Animate, and create interactive components like buttons, menus, and toggles. Weâ€™ll also cover scrollable areas, overlays, and mobile vs. desktop flows. This course is perfect for UI/UX designers who want to bring their designs to life, communicate ideas clearly, and conduct early usability testing. Whether you're designing apps or websites, this hands-on course will give you the essential prototyping skills to enhance collaboration, reduce rework, and improve user satisfaction. Letâ€™s begin your journey to interactive, engaging, and functional design with Figma prototyping. TD Sunshine
