About the course Figma design systems

Course Presenter : TD Sunshine

Figma design systems, in this course we will learn everything about building, managing, and scaling design systems using Figma. You will discover how to create a consistent and efficient design workflow by mastering components, variants, styles, grids, and tokens. Learn how to organize UI kits, establish naming conventions, and build libraries that can be shared across teams. The course also covers best practices for maintaining a scalable system, collaborating with developers, and documenting your design system for real-world product development. Whether you're a beginner or looking to level up, this course provides practical steps to help you build professional design systems that save time and keep your projects cohesive. By the end, youâ€™ll be able to design and maintain reusable, adaptable, and user-friendly design systems in Figma like a pro. TD Sunshine
