About the course Figma variables fundamentals

Course Presenter : TD Sunshine

Figma variables, in this course we will learn how to use Figma variables to streamline and enhance your design workflow. Figma variables allow designers to store and reuse values like colors, text, numbers, and booleans across their projects. Youâ€™ll discover how to set up and organize variables, create multiple themes (like dark and light mode), and apply variables to components, styles, and design tokens. The course covers practical use cases such as responsive layouts, prototyping with variables, and connecting variables to design systems for better scalability. You'll also learn how to collaborate with developers by aligning design variables with code tokens. Whether you're working solo or in a team, this course equips you with the skills to design smarter, faster, and with more flexibility using Figma variables. By the end, you'll be able to build adaptable, efficient, and professional design systems powered by variables. TD Sunshine

Web Design Category's Courses

Course Lesson(26)

Lesson 1 :
Figma Design System Colour System Using Variables Tokens Part 1 Figma Variables Tutorial

Lesson 2 :
Connect Figma Variable to Variant Connect a component to a variable Prototype with Variables

Lesson 3 :
Figma Button Components Variables Tokens Variants Component Properties Design System Part 5

Lesson 4 : **Figma RESPONSIVE DESIGN using Variables Layout grids and Auto Layout Figma 2024**

Lesson 5 :
Figma Component Input Field Variables Variants Component Properties Design System Part 7

Lesson 6 : **Figma Variables Radius Tokens Figma Design System Part 3 Figma Variables How To**

Lesson 7 : **Figma Dropdown using Variables Figma design system drop down Figma 2024**

Lesson 8 : **Design System Typography variables in Figma Figma 2024**

Lesson 9 :
Figma variables to change the language using a dropdown How to use Figma variables Step by step

Lesson 10 :
Figma Components Checkbox Radio buttons Variables Variants Component Properties DS Part 8

Lesson 11 : **Variables for Typography and Gradients Figma Variables update April 2024**

Lesson 12 :
Avatar Component Figma Variables Variants Component Properties Design System Part 9

Lesson 13 : **Set variable mode interaction Figma update May 2024 Figma Variables**

Lesson 14 :
Figma PROTOTYPE with VARIABLES Config 2023 update Design tokens tutorial Variable prototyping

Lesson 15 :
Figma Project Set Up for UX UI Design Projects Mobile UX Figma How to set up a project in Figma

Lesson 16 :
Figma VARIABLE MODES Figma Variables Step by step Config 2023 update Design tokens tutorial

Lesson 17 : **Figma Variables Prototype a form dynamic form using VARIABLES in Figma 2023**

Lesson 18 :
Figma RESPONSIVE DESIGN with VARIABLES AUTO LAYOUT Config 2023 update Step by Step

Lesson 19 :
Figma VARIABLES BEST PRACTICE Figma Variables Step by step Config 2023 update Tokens tutorial

Lesson 20 :
Prototype with Variables in Figma Tips for variable prototyping with four kinds of variables

Lesson 21 :
Figma Variables for beginners Master Figma variables in 10 minutes How to use Figma variables

Lesson 22 : **Reusable E Commerce store using set variable mode Figma variables 2024**

Lesson 23 :
Figma Variables Dark And Light Modes How to use variables in Figma for Colour Modes Figma 2023

Lesson 24 :
Figma variables Personalised journey Variable onboarding flow Variables for personalization

Lesson 25 :
Create a working keypad prototype in Figma using variables figmadesign figmatutorial figma

Lesson 26 : **Figma variables Make an e commerce store figmatutorial figmadesign figma figmatips**
