About the course Make a planner in figma

Course Presenter : TD Sunshine

Make a planner in figma, in this course we will learn how to design a custom, stylish, and functional planner using Figma. From setting up artboards to creating daily, weekly, and monthly layouts, youâ€™ll explore how to structure planner pages with grids, auto layout, and components for easy customization and reuse. Youâ€™ll learn how to incorporate task lists, goal trackers, calendars, and note sections, all while applying design principles for clarity and usability. The course will also cover adding icons, typography, and color themes to give your planner a polished, professional look. Whether youâ€™re designing a digital planner for personal use, clients, or print, this course gives you the tools and skills to make your own complete planner system in Figma. By the end of the course, youâ€™ll have a planner that is not only beautiful but also easy to maintain, update, and export for digital or print formats. TD Sunshine
