About the course Figma mobile app design

Course Presenter : TD Sunshine

Figma mobile app design, in this course we will learn how to design a complete and user-friendly mobile app interface using Figma. From wireframing to final high-fidelity designs, youâ€™ll explore each step of the app design process. Weâ€™ll begin by understanding user needs, creating flowcharts, and sketching rough ideas. Then weâ€™ll dive into Figma to design intuitive screens, apply UI design principles, and build consistent components and styles. Youâ€™ll learn how to use auto layout, constraints, and variants to make responsive, scalable mobile interfaces. The course also covers prototyping, transitions, and sharing your app designs with stakeholders or developers. Whether youâ€™re creating an app for iOS or Android, this course provides practical tools to turn your app idea into a professional, visually appealing interface. By the end, youâ€™ll have a full mobile app design project built from scratch using Figma. TD Sunshine
