About the course UX design fundamentals

Course Presenter : Mavi Design

UX design fundamentals, in this course we will learn the essential principles and practices of User Experience (UX) design. Youâ€™ll explore how to understand user behavior, identify pain points, and design intuitive digital products that solve real problems. Weâ€™ll cover the complete UX process from user research and persona creation to wireframing, prototyping, and usability testing. The course will guide you through key concepts such as user-centered design, information architecture, interaction design, and accessibility. You'll also learn how to collaborate effectively within a team and communicate your ideas clearly through user flows and UX documentation. Whether you're designing a mobile app, website, or digital platform, this course will provide the foundation you need to create seamless and meaningful user experiences. By the end, youâ€™ll be equipped with the tools, mindset, and confidence to apply UX best practices to any project. Mavi Design
